## UNCLE SAM FIGURES OUT CARRIER SERVICE

Necessary to Have  
Boxes at Doors Re-  
sult of His Study

### WILL CONSERVE TIME

Movement Will be to Save  
Extra Work—Cigar Boxes  
May be in Demand

Uncle Sam is busily working on the problem of better mail delivery service and has finally reached the conclusion that among other things, the system of individual delivery is a source of trouble. Postoffice department people after covering miles of footscap figuring, have found out that when a mail carrier has to travel to the interior of every business concern to leave mail at the desk, or open and close every door of a private residence after waking the entire length of porch, he uses up considerable time. Consequently the postoffice department has entered into the conservation of time business.

If a man has a cigar box or a soap box or can borrow one from the nearest cigar store or grocery he can, if handy with tools, manufacture himself the nicest kind of mail box. Uncle Sam's postoffice people want him to do it too. Or he can buy a ready made box. The department has sent out notices to postmasters couched in language that gives evidence of preparation by a man of legal turn of mind, suggesting improvements. What the department means to say is that people must have mail boxes at their houses. They are to be given 60 days to get them. If they don't well, if they don't that is another matter, but the indication is they won't get mail service.

The department suggests that either a slot be put in the ordinary house door or that mail boxes be located at the front of the house. Postmaster J. K. Smith some of these days may start a campaign for boxes—in fact he is expected by the department to make such a campaign. In closing its remarks on the subject the department says in a circular letter to postmasters, "Experience has shown that the complete equipment of the dwellings on a carrier's route with mail receptacles will effect a saving in the carriers time of from one-half to one hour, which will obviate the curtailment of deliveries on heavy days and by a readjustment of routes afford relief where needed."

Rev. Hall To Leave Roscoe.  
Rev. Logan Hall, pastor of the M. E. church at Roscoe during the past conference year, will bring to a close his term at Roscoe on Sunday evening. It will not only mark the end of the conference year but Rev. Hall will not return as he has made arrangements to enter the University of Pittsburgh for the purpose of continuing his theological studies.

## School Sues for Money

Auditor General Powell Made  
Defendant in Suit by  
Indiana Normal

Suit was entered Friday against Auditor General A. W. Powell to compel him to pay \$17,120.98 to the trustees of the Indiana Normal school out of the allotment of \$20,000 of the appropriation made for the state normal schools by the appropriation act of 1915. It is asserted necessary improvements were made, and the auditor general found a technicality, claiming the cost was not properly payable out of the appropriation.

Charleroi Man Borrows  
Machine and Fails to  
Make Good

### HIS ARREST RESULTS

Kent Smith, colored, is in the Charleroi lockup charged with stealing an automobile from the Elite garage the morning of August 23.

Smith claims that he was going out to bring in a machine that had broken down on the Maple-Creek road. He took Dr. Viesler's machine, and had an accident at First street. He left and was not seen in Charleroi for several days. He returned later, but was not proven.

Friday A. Buhl, of Pittsburgh, a representative of the automobile insurance company, came to Charleroi and made information against Smith, charging him with stealing an automobile. He will be sent to the county jail at Washington unless he can furnish bail.

### BIRTHDAY PARTY IS HELD FOR TWO PERSONS

A double birthday party was held at the home of Mildred and Master Raymond Snyder on Friday evening. They both received many beautiful presents. Lunch was served by Mrs. Snyder, Mrs. L. Henderson, Mrs. F. D. Hill and Bertha Wable. Games and a grand march were the amusements. About 40 were present.

## TENER REAL THING AS LEAGUE LEADER

Writer Menks Pronounces Governor the Biggest  
Man in Baseball Today--Tells How He  
Has Boomed the National League

John K. Tener has proven to be a second Moses. He has led the National league from out of the state of quarrels, bickering and near dissolution to the promise land of good fortune, peace and harmony, says Frank G. Menke, a prominent sport writer.

Tener today is the dominating figure in baseball. What Tener says goes, whether his utterance concerns merely his own league or the National Baseball Commission, the governing body of organized baseball. Magnates of not only the National league but of the American and minor leagues as well follow Tener's lead and follow it blindly, if the occasion demands. They have confidence in his judgement, his leadership and his fairness.

Less than a year ago Tener assumed the role of National league president. During that short period in which he has been able to give only a part of his time to the affairs of baseball, he has demonstrated that the National league magnates made a master stroke when they induced him to take the job.

Tener is still governor of the state of Pennsylvania. That job expires on December 31. Holding two jobs at one and the same time is a mighty task, but Tener has been equal to the occasion.

During the last year the National league has passed through the second crisis of its history. The Federal league has been a menace. It threatened to disrupt many of the teams of the old league. A few false moves here and there and the National league would have been dealt a terrific blow. But Tener, arriving a bit late on the scene, took charge of the situation and saw to it that no false moves were made.

Tener, when he took over the job, found himself face to face with many conditions that were hard to handle. They had existed for ten years. All was not harmony among the National league magnates. Charles Webb Murphy ruled as boss of the Cubs and he defied anyone to hoist him out of his job. Tener immediately accepted the challenge because he saw that Murphy was an undesirable and pushed into obscurity so rapidly that he hardly knew how it happened.

Tener, in the minds of many, has been the saving of organized baseball during the past six or eight months when the Federal league made such a strong bid for popular favor. When other high officials of organized baseball were issuing blatant statements that "the Federal league was a joke," and that "the Feds are going to bust in about three weeks," Tener refused to make any such statements. He remained discreetly silent. While others placed themselves and their organizations in the ridiculous light of "the Federal league was a joke," Tener maintained the quiet dignity that should go with an office such as his.

### TO JAIL FOR HIM NOW

William Smith, colored, is in the borough jail awaiting a trip to the county jail in Washington where he will be placed in default of bail to await the action of the grand jury. He is charged with stealing a bolt of blue serge cloth from the tailor shop of M. Wein, the Fifth street tailor.

Shortly before noon Friday Smith went into the Casino restaurant and began to cause trouble. The proprietor appealed to the police and they arrested Smith, who by that time had gotten in behind a box in the alley back of the restaurant. He had the bolt of cloth under his arm.

The police began an investigation and soon found that M. Wein had lost a bolt of cloth some time during the morning. Wein and his tailor, Jake Wolfe both identified the goods in Smith's possession as the goods which had been taken from the shop. There were about 14 3-4 yards in the piece. One pair of trousers had been made from the bolt.

Smith told that he came to Charleroi on the street car from Pittsburg about noon Friday. He said that he bought the goods in Canada, across from Detroit, while he was working in Detroit. He stated that he paid \$16.50 for it and that there were 14 1-2 in the piece. He said that he smuggled it into the United States from Canada.

Smith wore a blue suit. He stated that he smuggled it into the United States from Canada.

Smith wore a blue suit. He stated that it was made in Toledo by some tailors for him. The stamp in the pocket of the coat showed that it was made by Guttugher and Welton, a tailoring firm in Akron, Ohio, and it was for Toney Modagoneo, November 15, 1913. He wore gum shoes, which accounts for the fact that Mr. Wein and his tailors did not hear him when he took the goods out of the front room of the tailor shop. He said that he bought his hat in Detroit but the stamp on the band showed that it was bought in Massillon, O. Smith will probably be taken to Washington the first of the week. He stated that his mother lives in Harrisburg and that he has a sister, El-nora Harris living in Uniontown.

### PEROXIDE UNAVAILABLE

Certain Kind of Blondes Lose  
Their Birthright--Druggists  
Tell of "Horrors"

The high cost of living is not causing Charleroi young women nearly so much worry these days as the high cost of appearance. If the price of those little "fixers" that produce a healthy glow are availed much further, these dainty young persons may be compelled to use their own complexions despite their defects, for a time at least. There is no such thing now as a brunette becoming a blond. Blondes these days are the real article. Peroxide, the article that has been a life saver for thousands of brunettes is now almost unobtainable. A local druggist states that it is almost impossible to procure it. He states that they have ordered several dozen bottles and would receive two or three bottles. And the price has more than doubled. It is manufactured in Germany.

Perfume and toilet powder, according to local druggists "have gone out of sight." It is almost impossible to procure them at any price. Almost every known toilet preparation has increased in cost from a third to one-half. The fact that the larger majority of toilet preparations are imported from France and Germany is said to be responsible for these goods becoming so costly.

It is declared by the local druggists that the shiny noses with a smattering of freckles well distributed over a normally pretty face promises to be permanent fixtures. If the nations of Europe do not soon settle their disputes and open their ports to commerce. In the last few months Djerikiss perfume has been costing its followers \$2 per ounce.

## G. O. P. LOOKING UP.

Political events throughout the state, and indicated in all discussions of the subject have greatly advanced the gubernatorial candidacy of Dr. Martin G. Brumbaugh and at the same time have tended to make Pennsylvania the political center of the movement to rehabilitate the Republican party in the nation. And it is noted that as Dr. Brumbaugh's candidacy, strong in the beginning, has become stronger, so has the "back-to-the party" movement, the return of Progressives to the Republican party become all the more pronounced.

The corollary to this, of course, is the intergration of the Washington party. A point made in this connection was that the enrollment figures, recently obtained from all sections of the state, clearly indicated that an overwhelming proportion of the electors preferring to be registered as Republicans. Such is the opinion of the Philadelphia Public Ledger.

One of the distinctive events of the week, the result of which had not been wholly foreseen by the advocates of fusion, was the effect of the Washington party's indorsement of Vance C. McCormick, the Democratic nominee for governor. Doctor Lewis' idea in withdrawing in favor of McCormick was that thereby all Progressives could unite with Democrats behind McCormick. But it was observed, while a host of Progressives, originally Republicans, would have been willing to support Doctor Lewis, they were not willing to support a Democrat because of differences on such issues as the tariff, and they are the more moved to this position because of the Republican candidacy of Doctor Brumbaugh, who stands for progressive issues and is unqualifiedly committed to the great moral issue of the campaign, local option. The revolt among Progressives against the Flinn-Van Valkenburg politics, by which the Washington party committee nominated McCormick, it is indicated is redounding to the benefit of Doctor Brumbaugh and of the movement to rejuvenate the Republican party.

Still another event which is having marked consequences, is the announcement of the membership of the Brumbaugh Citizen's committee. The personnel and high character of this body, composed as it is of independents and former leaders in independent movements, has resulted in committees hearing from many Washingtonians that they will now support Doctor Brumbaugh. And the indorsement of McCormick by a number of anti-liquor delegates, at Harrisburg on Thursday last, temperance men say, no more indicates the real feelings of the vast army of local optionists in the state than does the indorsement of those delegates of Gifford Pinchot, rather than Palmer.

## LET US GIVE THANKS.

We have more to be thankful for than any people on earth.

Let us remember our manifold blessings.

We see the nations of the world at each other's throats in a heilish and fratricidal war, says Farm and Fireside.

We are most blessed in our removal by the wide ocean from the scene of that conflict. We are a united nation of fifty states, speaking a common language, understanding each other, having no enemies of one state against another. No other people have such a blessing. We are so accustomed to it, that we can scarcely understand the anxiety of Europeans as they scan the sky.

for warship and listen for the ramping of invading hosts.

On our north lies Canada, a people like ourselves, peaceful, friendly, no less our fellows than are our brethren of our sister states. We may well be thankful for the fact that along the great frontier from Maine to Puget Sound we are in need of not a single fort or a single soldier. No European nation has such splendid neighbors as are the Canadians to us. This is the most beautiful fact in the political geography of the world.

On the south we have Mexico, turbulent, torn by revolution, and often a treacherous and undesirable neighbor. But we may well render thanks that by patient forbearance we have put aside the danger of embroilment in war with Mexico. We pity the Mexican people, and hope that they may set their feet now on the ladder which leads upward to the level of peace and stability and prosperity which we have gained.

We should be glad that our Government has so acted that we are free from war with Mexico at this time especially. Otherwise we should be in greater danger than now of being drawn into the awful vortex of the world war. Were we now at war Mexico might easily be encroached upon by some of the warring nations. Mexico might be able to make an alliance with one of them. Our possessions in the Pacific might be attacked. We should thank God for peace with Mexico.

We should be glad, too, that the policy of making friends with Argentina, Chile, Brazil, Colombia and by our broad-minded treatment of the right of passage through the Panama Canal with the commercial nations of Europe and Asia, we are better friends with the whole world than we have been for years.

We have no kings with ambitions like those of Hapburg, Romanoff and Hohenzollern. We are glad of that. And of all things, in this dreadful time, we should be thankful that we have a people educated in common schools, able to read and write, and intelligent enough and moral enough to be sorry for the wretched peoples of Europe and to wish them a good deliverance from the tortures they are enduring.

To be an American is a good thing. Let us never forget that.

## PICKED UP IN PASSING

It is related that a Charleroi man recently in Pittsburg entered a Fifth avenue restaurant and ordered his lunch from a slow waiter. He waited patiently for 30 minutes before his order was set before him. The waiter inquired after his usual custom if there was anything else.

"Yes," replied the Charleroi man. "Some cheese and crackers, please."

"Yessir, anything else?" inquired the waiter.

"No," instructed the Charleroiite, "only send me a postcard every now and then while your'e gone."

A group of Charleroi women were discussing methods of making their husbands behave which from their conversation seemed a rather difficult task. One told the story of the way in which the wife of a certain writer showed him the light.

The writer was in the custom of waking early in the morning. Then he would usually think of a new work or a new sentence.

"Marie! Get up! I've thought of a good word," he called one morning at 1 o'clock to his sleeping spouse. Marie patiently arose, as was her wont to jot down the word. Then back to sleep she went.

At 5 o'clock she was aroused again by her excited husband, "Marie, get up, I've thought of a better word," he exclaimed.

"Get up yourself, James," she said, "I've thought of a bad word."

## COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich. — I suffered terribly from female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I had a piece of paper blowing around the yard and I picked it up and read it. It said "Saved from the Grave," and I saw what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, "Why don't you try it?" So I did, and after I had taken two bottles I felt better and I said to my husband, "I don't need any more," and he said "You had better take it a little longer anyway."

I took it for three months and got well and strong. — Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often obliged to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. — The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. — The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, "Why don't you try it?" So I did, and after I had taken two bottles I felt better and I said to my husband, "I don't need any more," and he said "You had better take it a little longer anyway."

I took it for three months and got well and strong. — Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.

In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often obliged to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. — The Lydia E. Pinkham Medicine Co., Lynn, Mass.

What better proof can be had?

Mrs. Rowe, 1005 McKean Ave., Charleroi, Pa., says: "For some time one of the family thought he had rheumatism. He suffered from severe pains in his back and limbs and found it hard to stoop to put on his shoes. Every fall and winter he was bothered. He finally got Doan's Kidney Pills from Piper's Pharmacy and began taking them. In a short time he felt much better. I used this remedy some years ago and know that it lives up to the claims made for it."

Confirmed Proof.

On January 29, 1914, Mrs. Rowe said: "I am willing to have you continue using my name recommending Doan's Kidney Pills. They have never failed to rid us of kidney disorders. I advise anyone being bothered with their kidneys to try this remedy."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rowe had. Foster-Milburn Co., Props., Buffalo, N. Y.

**WILD TURKEYS SAFE FROM MOLESTATION**

There will be no hunting of wild turkeys this year as the season for those birds is closed until 1915. The principal hunting indulged in near Charleroi and vicinity is that of hunting rabbits. The season for rabbits will open the first of November and close December 31st. Each hunter is allowed to shoot ten rabbits in one day, 20 rabbits in a week and 50 rabbits in a season. The season for quail and pheasants opens October 15 and closes November 30. Hunters are allowed to shoot 10 quail a day, 40 quail a week and 75 quail in a season. The number of pheasants allowed are 10 each day, 20 in a week and 50 in a season. The squirrel season is open from October 15 until November 30, and each hunter is allowed to shoot six squirrels a day during this season.

Charleroi has many men whose ideal pastime is hunting and many have been taking advantage of the licenses before the main rush starts in County Treasurer Downer's office. There are several new rules in the issuing of licenses this year which the hunters are informed of when securing their license.

**A NOTRE DAME LADY'S APPEAL**

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving facility and ease to the whole system. ### VERDICT GIVEN IN UNDERWOOD CASE IN GREENE

The court at Waynesburg Thursday gave instructions in the case of Thomas J. Underwood against the Pittsburgh, Monongahela and Southern Railroad company to find a verdict in favor of the defendant. Mr. Underwood had brought action against the railroad company to recover damages because of the construction of the road across property which he owns in the borough of Rice Landing. Mr. Underwood purchased the ground from the heirs of Peter Sharpnack after the road had been projected and the contention of the defendants was that because Mr. Underwood had purchased the property after the road had been projected he could not collect the damages but that they must be collected by the owner of the land at the time the road was projected. Judge Inghram ruled in favor of the defendant. It is likely the case will be carried to a higher court.

### DOGS MAY HUNT IF THEY HAVE MUZZLES

The dog quarantine need not bother hunters, according to Dr. W. T. Edwards who is conducting the State Live Stock Sanitary Board's crusade against stray dogs in a section of Fayette county. They can hunt with their dogs muzzled just as well as not, he declared and to prove his assertion he cited as an instance, Mifflin county where dogs were muzzled during the whole season, yet no trouble was experienced. The quarantine went into effect there four days before the hunting season opened.

The season for birds and small game opens October 15, but the rabbit season does not open until November 1. Dr. Edwards figures that it will be no hardship for hunters to muzzle their dogs in the quarantined section during this period. Most of the hunting by local men is done outside of the county, anyway, and little if any is done within the quarantine zone.

## DEMOCRATS TO FIND OUT IF PALMER IS TO BE WITHDRAWN

Sentiment of Democrats throughout the state on the question of whether or not A. Mitchell Palmer should retire from the running as a candidate for United States senator is to be ascertained at the meeting of the Democratic state committee that has been called for next Tuesday in Harrisburg.

Although Palmer has publicly declared that he has no intention of retiring the Washington party leaders are keeping up their demand on the Democrats that something be done in return for the recent withdrawal of William Draper Lewis, Progressive candidate for governor, in favor of Vance C. McCormick, Democrat. State committeemen, it is said, have been asked to sound out their people at home and report the sentiment at next Tuesday's meeting.

## BROWNSVILLE PEOPLE TELL OF EXPERIENCES

Brownsville, Sept. 26—Forced to abandon the specialist course he was pursuing Dr. L. N. Reichard and his wife, Mrs. Reichard, are now on their way across the Atlantic and will probably arrive home about October 1, according to information received by Dr. Reichard's father, Dr. C. C. Reichard. Dr. and Mrs. Reichard sailed from Glasgow, Scotland, on August 19, but on a slow sailing vessel. They are expected to land in New York about October 1 and will return home to Brownsville in sufficient time to enjoy the centennial celebration.

Information direct from the firing line in war swept Europe was received this week by Mrs. M. Seligman of No. 1 Union street in a letter written by her mother, Mrs. Joseph Baum, who lives about seven miles from Mulhausen, Alsace Lorraine, which has been the center of fighting practically since the war began. The letter was written in German and dated August 30. It has been sent to Uniontown where relatives of Mrs. Baum there have been given the information. Mrs. Baum was the sister of the late Max Baum, well known merchant of Uniontown. Leo Baum, a son of Mrs. Baum and brother of Mrs. Seligman, is a sergeant in the German army and it was through him that Mrs. Baum received her information about the situation.

England is the sole cause of the war, according to Mrs. Baum's letter. Great Britain aroused France and Russia against Germany and there was no other course left open for Germany but a declaration of war. She states that Germany asked Belgium's permission to transport troops across that country but that England and France would not allow Belgium to grant that permission.

It is reported in Mulhausen, Mrs. Baum writes, that the city Odessa, in Russia, is in a state of revolution. She states that dispatches to that effect are being carried in papers there but there has been no detailed account.

Mrs. Baum writes that up to the time the letter was sent, Germany has not lost a single battle, according to the most conservative reports in the local papers.

Wearied and exhausted by a troublesome trip in company with 500 other American refugees across the European continent where nations are engaged in the world's greatest conflict, and his nerves further shattered by a stormy voyage across the Atlantic ocean, Rev. Alexander Szekley, with Mrs. Szekley and their young son, Alexander Jr., returned to their home in Union street, Brownsville, Wednesday from their native town in Hungary. Mrs. Szekley and Alexander Jr. went to Ungvar, Hungary, to visit her relatives last February 12, and Rev Szekley followed this summer leaving Brownsville on June 12, and arriving in his home town on June 25, three days before the assassination of Crown Prince Ferdinand, and which led soon after to the commencement of the wars of nations.

### Brown Closes Contract.

Captain W. Harry Brown has closed a two-year contract for Alicia furnace coke with the New Jersey Zinc company, the price being arranged on a sliding scale, referable to the current market price for pig iron. The Alicia plant is near Brownsville.

## UNITED STATES MINE BUREAU TO INVESTIGATE

The United States Bureau of Mines in co-operation with the United States Geological Survey has undertaken additional and more comprehensive investigations pertaining to the problem of mine caves and surface support. The immediate work of the mining engineers and geologists will comprise detailed studies of the extensive open-cut and underground mining operations in southwestern New Mexico. The field investigations will be conducted with special reference to earth pressures and surface subsidence in relation to the geological formation and mining conditions, and the equipment and efficiency of the large mechanical installations in operation there.

The Bureau of Mines it will be remembered, has already done a large amount of work in the problem of mine caves. Director Holmes and several mining engineers served in an advisory capacity on the board of the Scranton Mine Cave Commission. Mining engineers of the bureau gave

the subject special attention in their studies of European mining methods and conditions. A mining engineer of the bureau served as a member and represented the co-operation of the bureau on the Pennsylvania State Anthracite Mine Cave Commission, and in the investigations conducted in connection therewith extensive tests of mine-roof supporting materials were made at the Pittsburgh experimental station.

The mining engineer and geologists of the bureau co-operated with the Scranton city council, the Bureau of Mine Inspection and Surface Support, Protective Association in studies and reports for the development of practicable solutions of the serious mine caves occurring during recent years.

Charles Enzian, mining engineer of the anthracite region, under the direction of Chief Mining Engineer George S. Rice will represent the Bureau of Mines in this co-operative investigation.

## WAR BULLETINS

London, Sept. 26.—Cracow is occupied by German troops. The town has been put under a German military commandant. The Austrian civil administration has been displaced. All the original administration of the town and all the civil officials of the Austrian government have left and the residents are fleeing in a panic. So says a dispatch from Petrograd.

London, Sept. 26.—A dispatch from Rome says that the Austrian seaport of Lissa in Dalmatia was bombarded by a French fleet on September 19. Later troops landed from the French warships and went into garrison. British and French flags were hoisted over the semaphore station at Lissa. Three Austrian squadrons are said to be sheltered in a canal at Pannana, opposite the naval station of Pola.

London, Sept. 26.—An official statement from Nish says that a severe battle continues on the front between Zvornik and Lotznitz, and on the front from Minihya to Sabatz. Elsewhere the situation is unchanged. The Austrian commander sent emissaries to Belgrade demanding the surrender of the town. The reply was an order to the artillery to fire on the Austrian monitors.

Petrograd, Sept. 26.—Dispatches from the general staff says on September 23 the Russians checked the tentative move of the German vanguard to advance on the government of Suwalki, a government of Russian Poland bordering on Prussia. Several engagements have resulted favor-

able for the Russians within the circle between Scheschubchin, and Vincent. In west Galicia there is no fighting. The Austrian army driven from Khyrov, continues a general retreat. The Russians have taken possession of the fortified position of Czyschky and Foulstyn, which covered Khyrov and other positions in the Radymno, between Jaroslaw and Przemyśl, taking all the enemy's artillery.

At the Battle Front, Sept. 26, (via Paris)—French and British troops, intermingled with Turcos and Moors, not only held their own, but caused the strongly reinforced German western wing to fall back near St. Quentin. The German line of communication toward the frontier of Belgium is imperiled. The German center has been weakened. Two strong forces were engaged at close quarters today between St. Quentin and Tergnier. The battle line is about 125 miles long. French troops in the region of Noyon were compelled to give ground before superior forces.

London, Sept. 25.—The town and harbor of Frederick-Wilhelm, the seat of government of the Kaiser Wilhelm's land, the name applied to the German portion of New Guinea, have been occupied by the Australian force without opposition. The armed forces of the enemy appear to have been concentrated at Herbershohe, which they annihilated. The British flag has been hoisted and a garrison established.

### CONTROLLER ILL OF ACUTE INDIGESTION

County Controller T. J. Underwood, who has been at the Greene county capital for the past few days, the plaintiff in a suit that was on trial there, was taken suddenly ill Thursday morning at 4 o'clock of acute indigestion. He managed to get to the court room at 9 o'clock, but his condition was such that he was a little later taken to the hospital. It was first reported that he was suffering from appendicitis and had been operated on, but this was incorrect. Attending physicians state that while Controller Underwood is a very sick man, his condition is not alarming.

## WOMAN IS MORE CIVILIZED THAN MAN!

Cleanliness goes hand in hand with civilization. Clean homes, clean bodies and clean minds make a great people.

Women have, in all ages, stood for the "cleanup" standards of civilization.

In ancient days she took the family wash down to the river, and after swishing it about, laid it down on a rock and swiped it hard with a club.

This was the first "Woman's Club."

Then came the back-breaking scrubbing board of a more recent day. 'Tis said it was thought out by a savage chief who liked to see his wives suffer as much as possible. A sort of hygienic Bluebeard, who, instead of chopping off the wife's head, broke her back, instead, and knocked her knuckles on the old wash board.

To get away from the washboard required a device so simple the wonder was no one had ever thought of it before.

To really get the dirt out of clothes you must force the water and soap back and forth through the fabric. That loosens the dirt and carries it out of the goods, without any injury.

When the principle was recently discovered a number of vacuum washers were rushed to the market. Many were cheaply made of tin and poorly constructed. They sold but they wouldn't wash!

After a careful experimentation a really good vacuum washer was perfected. One that would actually put the suds water back and forth through the clothes and take out the dirt.

Instead of the old fashioned bar soap you use the more economical borax soap chips, which works much better.

And just think, you don't have to put your hands in the water, and there isn't any boiling, soaking or scrubbing. It seems almost too good to be true, but it's really so.

And it won't cost you hardly anything to have one of these wonderful washers right in your own home.

Your own grocer right here, or any of the nearby towns can fix it up for you so you can get one of these wonderful washers and a supply of the economical borax soap chips for less than \$1.17.

The washer will work perfectly and last for years—and the borax soap chips won't cost any more than the old fashioned soap.

There will be a big rush for these outfits and grocers may have only enough to go around.

Better ask your grocer about it today.

Inquire of your own grocer for this outfit by name "The 20 Mule Team Vacuum Washer" and "20 Mule Team Borax Soap Chips." Remember the name "20 Mule Team."

## BENTLEYVILLE

Friday Shird Malone, of Bentleyville was arrested by Constable William Eppley, on a charge made by Malone's wife. Malone has been debauching for several days past it is claimed and has been acting rather shockingly. Mrs. Malone made complaint to the authorities of Bentleyville. As a result Malone is spending some time in the town's calaboose, with a trial impending. Chief Stillman declares that the authorities will make an attempt to have Malone taken from the town for good. The Malones live near Bentleyville in the Clover Hill district.

### Business Men Beware.

It is reported that a pair of counterfeiters are passing bad money in several towns in the valley, but as yet no report or complaint has reached the ears of the Bentleyville authorities. The pair are described as Italians of small stature and have been reported to have been in Monongahela and several adjacent towns. The merchants of the town have an eye set for a pair measuring up to the descriptions.

### To Talk in Town.

Next Monday Hon. P. W. Fuller will deliver a lecture on "The Horrors of War," in Bentleyville. Many figurative instances will be reviewed and it is hoped that a great number will be present. Mr. Fuller will vividly portray the horrible instances of the present European war, and prophesy their inevitable outcome.

### Arm Badly Crushed.

J. W. Garber, a farmer of rural Bentleyville received a painful injury when his right arm was crushed. The limb was caught in the spokes of a rapidly revolving flywheel of a threshing engine. Garber was working on the Scott threshing outfit when the accident occurred. The bone was broken.
